

Commonwealth of Pennsylvania

July 29, 2021

Dear Local Elected Officials:

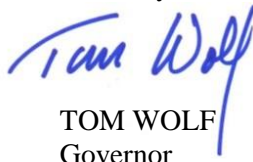

Through the diligent work and cooperation of the Vaccine Task Force, the Department of Health, our statewide network of vaccine providers, and many of you, Pennsylvania has made admirable progress in our vaccine rollout and as of July 28th we stand ranked 8th in the nation for first doses administered. Not coincidentally, we also stand at 45th in the nation for new COVID cases per capita. Unfortunately, the rising tide of the Delta variant is lifting case numbers in all states, and Pennsylvania is no exception – our statewide 7-day average daily caseload has nearly quadrupled in just three weeks. Low case counts and high rates of vaccination in eligible people are what keep all of us, including the immunocompromised and children under twelve, safer as we return to our normal routines.

We are at a pivotal moment in this pandemic – a moment that has already passed in states like Arkansas, Missouri, and Louisiana – where we can either stand by as COVID evolves into a disease that hospitalizes people at rates rivaling the COVID we knew in 2020, or we can redouble our vaccination efforts and work together to protect the progress we have made and avoid the consequences of widespread infection. We know what those consequences would be: dangerous living conditions for our elderly loved ones in long-term care facilities, workplaces with fewer available workers, and full hospitals.

We are asking you to take advantage of this moment and use every tool at your disposal, starting now, to encourage your constituents to be vaccinated. We are all connected to our constituents on social media, through local events, newsletters, and more. We can talk to our constituents directly, we can elevate the voices of local trusted healthcare providers, we can discuss our own experiences, and talk about our shared goals: protecting ourselves and those we love. Please do this with care, with understanding, and with urgency.

Free resources are available at pa.gov/COVID. Thank you for your continued efforts and your attention to this vital matter.

Sincerely,

TOM WOLF
Governor

Ryan Aument
State Senator
36th Senatorial District

Art Haywood
State Senator
4th Senatorial District

Tim O'Neal
State Representative
48th Legislative District

Bridget M. Kosierowski
State Representative
114th Legislative District
