

2022 Legislative Priorities

Municipal Mandate Reform

Collective Bargaining

Act 111, the Police and Fireman Collective Bargaining Act, is 52 years old and has never been updated. Public safety pay and benefits, however, have increased significantly since the late 1960s. A “reset” of Act 111 is necessary to provide a level playing field for employers reflecting today’s work standards and economic realities. A “reset” will put control back in the hands of the employer by addressing the accountability of the neutral arbitrator. Without such changes, any future police reform measures will be in jeopardy.

Public Safety Pensions

Municipal pension costs are one of the most pressing financial challenges facing local governments today. Pension statutes must be updated to provide cost predictability and financial sustainability without negatively impacting current employees.

Tax-Exempt Entities

Municipalities host a multitude of tax-exempt entities. While offering important community services, tax-exempt entities do not directly contribute to the tax base. This creates an inequitable burden on the entities that do pay taxes. Municipalities and taxpayers need relief. Regular review of each tax-exempt entity’s designation, as well as continuation of a high threshold to meet that designation are important aspects to relieving the burden of tax-exempt entities.

Consumer Fireworks

The legalization of consumer fireworks has resulted in a very expensive unfunded mandate. Communities are paying a high price as they work to address quality of life complaints while trying to enforce a law that is nearly impossible to enforce. The cost to municipalities is far greater than the monetary benefit to the Commonwealth, making repeal of this law the only option for local government.

Investment in Core Communities

Revitalization

Investment in core communities must be a priority for the Commonwealth. Housing, job creation,

private investment, venture capital, business tax credits and low-interest loan financing are key economic development tools that urban municipalities must be able to access in order to create and maintain livable, attractive communities. Direct, targeted investment is even more critical as communities look to recover and help their residents and small businesses recover from the economic devastation brought about by the COVID-19 pandemic.

Local Control

Local Taxation

Local governments provide services under an archaic and regressive taxing structure that does not reflect today’s society or meet today’s needs. The flexibility of options, determined locally or regionally, would better serve taxpayers. Local government officials are ready to accept the responsibility of determining the local taxing options that best fit their community.

Local Use of Radar

Radar is a reliable, accurate and efficient public safety tool. Pennsylvania is the only state still protecting speeding motorists by denying localities the use of radar. It is a falsehood that radar will be used as a local revenue tool. With the Commonwealth receiving the bulk of fine revenue, the cost of enforcement will outweigh the municipal share.

Preservation of Local Decision Making

On a regular basis, preemption legislation is introduced taking local decisions out of the hands of locally elected officials. Proponents of this legislation argue that state level decisions are better. The League strongly disagrees with this premise. Many issues come down to local government’s basic and inherent duty to protect the health, safety and welfare of residents. Other issues involve finding solutions to new and unique problems facing our communities. Problem solving at the local level is democracy in action, as well as innovative and community based, and it should not be stifled by overarching state laws.
